EDUCATION

Certificate in Full Stack Web Development

Columbia University,
New York, NY

April 2021

Learned through a rigorous curriculum that covered a full-stack: HTML5, CSS3, JavaScript, jQuery, Express.js, React.js, Node.js, progressive web apps, agile methodology, computer science, database theory, MongoDB, MySQL, Git, and more.

PROFILE

Results oriented full stack web development student currently enrolled in the Columbia Engineering Coding Bootcamp. Strong background in counseling individuals and families. Excellent client evaluation skills and the ability to locate and promote appropriate community services for clients. Proven ability to quickly establish excellent working relationships with clients. Recognized by colleagues for creative problem-solving skills, and astute contributions to team meetings.

PROJECTS

Farmwise Fresh Eats

[GitHub](#)   [Deployed Link](#)

January 2021

By entering a zip code, our easy to use interface shows user farmers markets in their area at a glance. By clicking on a market, user can, see details on goods sold, and hours of operation. Farmwise Fresh Eats utilizes the USDA's database of registered markets.

Coding Quiz

[GitHub](#)   [Deployed Link](#)

December 2020

Built a timed coding quiz on HTML and JavaScript fundamentals, with multiple-choice questions. This app will runs in the browser, and haa a clean, polished, and responsive user interface. The languages used are HTML, CSS, JQuery, and JavaScript

Burger-Zilla

[GitHub](#)   [Deployed Link](#)

February 2021

This project is a full stack application that allows users to input the names of burgers they'd like to order. Whenever a user submits a burger's name, your app will display the burger on the left side of the page, waiting to be devoured. Each burger in the waiting area also has a Devour it! button. When the user clicks it, the burger will move to the right side of the page, indicating the burger has been devoured. The app will store every burger in a database, whether devoured or not.The technologies used are HTML, CSS, JavaScript, Bootstrap, Handlebars, jQuery, Node, Express, ORM, and mySql. JavaScript

WORK EXPERIENCE

Brooklyn Defender Services, Senior Social Worker

2017-Present

• Provide referrals for clients to address mental health, substance abuse, and domestic violence issues

• Act as an advocate and liaison for clients in securing access to community treatment, rehabilitation and support services

• Manage a caseload of up to 65 parents involved with the child welfare system through providing crisis management services and on-going supportive counseling

• Collaborate with staff attorneys to provide interdisciplinary legal representation

• Monitor client progress toward treatment goals to ensure appropriate clinical interventions and adjustments to overall plan

• Supervise social work students, which includes providing clinical supervision, reviewing court reports, and assigning appropriate cases

• Assist in the recruitment/interviewing process of staff members, as well as aid in the onboarding process of new staff social workers

Kwenyan Professional Health Services, Mental Health Therapist

2016-2017

• Conducted psychosocial assessments to document history and identify preliminary issues for treatment by interviewing the client and family (if applicable), and transcribing or dictating relevant information for client records.

• Provided individual, family and/or group therapies using various treatment modalities

• Developed treatment plan by establishing treatment goals with client and their support system, and determining treatment methodologies

• Maintained client records by following agency protocols; enter and update data, maintain case history and progress notes

• Attended monthly clinical staff meetings, as well as participate in agency-wide evaluation efforts

Bergen's Promise, Care Manager

2015-2016

• Partnered with families to design, implement and monitor individual service plans for children with complex needs including behavioral, emotional and developmental disabilities

• Maintained regular contact with service providers to obtain feedback and guidance with regards to the individual service plan

• Developed the Child and Family team, as well as facilitate Child and Family Team meetings held every 60-90 days, or as needed

• Acted as an advocate and liaison for youth at court proceedings and school meetings
